

Canyoning VDA

CANYONING AND COVID-19

CANYONING VALLE D'AOSTA

Prevention protocol: the measures taken

- To access the CENTER and the activities you will need to wear a PROTECTION MASK, preferably with CE marking or validated by the National Institute of Health pursuant to art. 15 of the Law Decree n. 18/2020.
- Read any advertisement and billboard
- Disinfect your hands frequently (our center is equipped with disinfectant)
- Maintain the interpersonal distance of 1 meter
- Respect and help us to enforce current regulations
- Sign a self-declaration of good health

Canyoning trip protocol at the time of covid

- The number of participants on board the vans will be limited by the rules on social distancing.
- During the approaches on foot and in the stream we respect the obligation of 1 meter spacing between the participants.
- For the descent into the canyon we provide our guides, and each participant that wants it, a waterproof neoprene mask.

Equipment and material sanitation protocol

All the material that will be provided to you has been checked, washed and sanitized externally and internally with PCM disinfectant products (Medical Surgical Presidium) and left to dry in an open environment.

The sanitary regulations in force
